DEDICATION

*To the Young Men and Women of the
Class of 1939 This Issue of Courtbullion
Is Affectionately Dedicated*

---The Staff

Wm. STUART NELSON
President
Dillard University

I am very happy to join with Courbouillon and our faculty and students in tribute to the Class of 1939. As members of this class you came to Dillard on faith, for Dillard was new and unproved when your choice was made and when it might have been easy to doubt. That faith we know has been justified. Thus, to the virtue of your faith has been added the accomplishment of deed, for what Dillard has been during these four years the Class of 1939 has contributed vitally to make it so. As the first class to complete four years at Dillard you have enjoyed a special opportunity both to be touched by the University and upon it to leave a special mark. We have been happy in your walking with us. We hope that you

have been happy in this fellowship as well as in the intellectual and spiritual growth to which these years have contributed.

However eloquent may be the praise of those who love a college, what it is will be determined finally by what its graduates are and what they do. Dillard loves her sons and daughters and gives her best to them. To them she entrusts her fate. None, let us hope, will ever betray that trust. It is certainly with high confidence in the account which you will give of yourselves and thus in the spirit of Dillard which will live in you that the University Family through Courbouillon now heartily and sincerely salutes the Class of 1939.

Wm. Stuart Nelson.

Editorial

For four years Dillard University, being a part of the universal quest for truth, has been nurturing and guiding her "disciples of truth" in preparation for the day when she must send them forth into a chaotic world. We have responded to thoughts of a changing world order but passively. Traditionally, we have been reminded of the day when Princes shall come out of Ethiopia, but history and Mussolini have presented us with a reality, for Princes **have** come out of Ethiopia—the idealistic has back-fired. That is reality, and all of the veneer of education is no guarantee that we are immune to life's realities.

It is a universal truth that we cannot escape from reality, but we can determine the nature of that reality by saving ourselves retrospective and justificatory thinking by

placing ourselves in a position to affect the course of events in the direction of our convictions.

From the walls of this young but flourishing institution, therefore, the young men and women of the Class of '39 will soon go forth into life's proving-ground—a proving-ground in which the harsh under-currents and counter-currents of life's realities will soon erase the high polish and veneer of their education and shall lay bare their true souls. There will be no escape. With intellectual and spiritual equipment alone will they be left to prove their true worth and the worth of their Alma Mater.

Significant, then, will be their departure, for they alone can answer the question as to whether Dillard is, after all, just another college.

For Studying Or Reading

You Need **More** Than "Just A Lamp"
PROTECT YOUR EYES WITH AN
I. E. S. LAMP

If's an astonishing fact that 40 college students in every hundred wear glasses or should be wearing them—and in nearly every case this defective vision can be traced to eyestrain caused by poor lighting. Your eyes can be damaged by poor lighting—sometimes **permanently**—before you realize the cause.

For studying or reading eye safety demands more than "just a lamp". You need an *I. E. S. study lamp, scientifically designed to give you an ample amount of light at just the right height and spread, shadowless, glareless and restful. See them on display at
